To Whom It May Concern:

The OCH Health System is currently recruiting a mission-minded Psychiatrist to fill our Medical Director position in our regionally and nationally recognized, fully-integrated behavioral medicine clinic in Springfield, Missouri. The current Director will retire in 2017, and we are looking to fill this position at any time.

Due to the success of the OCH Integrated Behavioral Medicine Clinic, the Missouri State Department of Mental Health recently sent representatives to review clinic best practices and share with other facilities. The potential to expand this one of a kind behavioral medicine clinic is almost limitless. Please review the document included for an overview of the practice model.

The Psychiatrist will provide psychiatric evaluations and behavioral health care to our patients in coordination with a multidisciplinary team located within the same clinic facility. This care team includes several clinical Psychologists, an Internal Medicine physician and three collaborating Nurse Practitioners who support our primary care initiatives and develop care plans for patient conditions such as CVD, diabetes, hypertension, obesity and hyperlipidemia on top of their psychiatric conditions. Other services offered include Electroconvulsive Therapy (ECT), Quotient ADHD Testing, Genetic Testing, Substance Abuse Counseling, Neuropsychological Testing and Patient Education. This is an outpatient practice open Monday through Friday, 8:00 am to 5:00 pm.

The OCH physician model is a unique employment opportunity, offering the freedom of an independent practice without the hassle of overhead and staff management. Physician compensation is determined by work RVU independent of collections and overhead. **Annual compensation for a physician in this practice setting at OCH could be more than $350,000 and we are offering a minimum salary guarantee for the first 2 years. We are willing to entertain all offers from mission-minded candidates.**

The OCH Health System consists of two hospital facilities: a 45-bed hospital in Springfield, MO and a 25-bed critical access hospital in Gravette, AR. We also own and operate 17+ clinics throughout southwest Missouri and northwest Arkansas. For more information on the OCH Health System, please visit our website: [www.ochonline.com](http://www.ochonline.com).

If you are interested in hearing more about this opportunity, please contact me at 417-837-4279 or ntaylor@ochonline.com. Please feel free to share this information with your colleagues.

Sincerely,

Natalie Taylor
