January 26, 2018

Dear General Psychiatry Training Director/Sir or Madam:

Please share this important information with your general psychiatry residents on J1 visas who anticipate graduation in June 2019:

The Department of Psychiatry and Health Behavior at the Medical College of Georgia, and the Augusta University Medical Associates, are happy to announce availability of adult psychiatric faculty positions supported by J-1 visa waivers for July 2019. The 40-hours per week required clinical duties in the underserved area would be at the Augusta campus of East Central Regional Hospital (ECRH) in Augusta, Georgia. ECRH is one of Georgia’s state mental hospitals. https://dbhdd.georgia.gov/east-central-regional-hospital-augusta-gracewood. These positions would include full faculty status and privileges.

Our department has successfully won J-1 visa waivers before for our faculty, so we know how to do it. J-1 visa waiver submissions need to be submitted by September 2018, which means that interviews should begin this spring 2018, with a signed contract by August 2018.

If you want to learn more, contact Vaughn McCall, MD at wmccall@augusta.edu.

Best Regards,

W. Vaughn McCall, MD, MS
