UHCC Academic Policy Subcommittee

This committee works to find commonalities across campuses and to develop UHCC system policies, as appropriate. The committee is chaired by Cheryl Chappel Long. We are currently looking at the “N” grade and Dave Loeding produced some campus statistics. Cheryl also wants to know how we feel.

1. Should “non calculated” grades (such as the “N” grade) be limited to
   a. Remedial/Developmental English, ESL, and mathematics and/or
   b. CTE courses under 100

2. Should General Education requirements be standardized for all AAs? For all ASs? For all AASs?

3. How should the grades/credits be calculated in the GPA when a student repeats a course?
   a. Should the credit be used only once?
   b. Should it be the highest grade that’s calculated?
   c. Should all courses be eligible for repeat or only courses in which a D or lower was earned?
   d. Should there be a limit on the number of times a student may repeat a course?
